

# Notes From Miss Kissel

## What is going on in the classroom?

I just wanted to remind you that the end of the first quarter is quickly approaching! The first quarter ends Friday, October 30. Please make sure that your child has turned in all absent work and late work by that date. Also remember that you can check your child's grade at anytime using the Parent Internet Viewer.

We have been busy in class these past few weeks. In sixth grade math, we will have our next test on Monday. It will cover lessons 11-20

In seventh grade math, we finally have our new books! We have been reviewing the first few sections. Next week we will start with more of a daily lesson format.

In science, we are

finishing up on the plate tectonics chapter. The test over this chapter will be on Tuesday. Since we have had so many students absent this week, the test will be open book. Please make sure your child is still studying for this test, though. If he or she doesn't know what is in the chapter, open book will not do any good. Our next chapter will cover earthquakes.

Finally, I wanted to let you know that I now have a working phone in my classroom. The school phone number is 755-2201 and my extension is 389. If I do not answer, please leave me a message. I check messages a few times a day.

If you have any questions about anything in this newsletter, please let me know. Have a great weekend!

## Comments, Questions, & Concerns

### Halloween Party

The sixth graders will have their Halloween parties on Friday, October 30. There will a costume contest at 1:45 in the auditorium. We will then return to our classrooms for individual parties. Please remember that the students are not to wear their costumes to school that day. They will have time to change before the costume contest. Also, please make sure that costumes are school appropriate. Please feel free to join us for the costume contest and classroom party. We would love to have you join the fun!

### Needed Supplies

If you would like to donate any of the following items, we would really appreciate it! Most items will be used for science class or our classroom store!

**Water Bottles**  
**Individually Wrapped Snacks**  
**Packages of Gum**  
**Candy Bars**  
**Suckers**  
**Plastic Cups**  
**Plastic Spoons & Knives**  
**Paper Plates**
